Manufacturer Refurbished Item Condition

Changes

Effective Sept. 17, you can no longer use Manufacturer Refurbished on ebay.com & ebay.com.au

Beginning early September, existing inventory under Manufacturer Refurbished will be adjusted to the Seller Refurbished item condition

Applicable to sellers using APIs, 3rd-party tools, MIP listing tools, and eBay listing flows

Actions to Take

When creating new refurbished listings, list under the Seller Refurbished item condition

When changing an existing Manufacturer Refurbished listing, select the Seller Refurbished item condition

Impacted APIs & Feeds

Inventory API
Trading API
Large Merchant Services
Merchant Integration Platform
Other API Updates

**Selling on eBay**
- Soon to be required aspects in Compliance API
- Suggested ad rates tailored to items in Recommendation API
